

VBP100

Rechargeable Li-ion Battery Pack

For continuous operation during power failures

- Inline connection allows battery charging while unit is operating
- Seamless switch over to battery power during mains power failure (DC-UPS)
- Backup power for Vololink Wireless Terminals
- Backup power/charger for other devices
- Robust splash proof case
- Battery condition LEDs
- Stylish design in a compact case

Technical Specification

Power Supply

- Input: 12V/1.5A
- Output: 12V/2A

Battery

- Type: Li-ion
- Capacity: 32Wh (4 x 2200mAh/3.7V)
- Recharge lifetime: up to 500 cycles

Connectors

- DC Input
- DC Output
- USB port 5V/0.5A USB charger

Switches

- On/Off switch
- Battery condition indicator push button

LED Indicators

- Battery condition LEDs: four blue LEDs
- Battery charging LED: one red LED

Environment

- Operating temperature: 0° to +45°C
- Storage temperature: -20° to +70°C
- Operating humidity: 5% to 95%
- For indoor use only

Mechanical Specification

- Dimensions: 115 x 72 x 22mm
- Weight: 250g
